

Your Security Blanket

Every newborn is special to us. When you have your baby at Knapp Medical Center, the neonatology team will strive to meet your needs and make the birth of your baby a memorable occasion.

Most babies are healthy newborns. However, there are times when some babies arrive a little too early or have needs that require the extra attention that a neonatologist can provide. This Security Blanket is our way of letting you know that, should your baby require an elevated level of care, our doctors in the Level II Neonatal Intensive Care Unit are ready to help. The Unit is staffed 24-hours-a-day by a team of expert neonatologists affiliated with Pediatrix Medical Group, the nation's largest provider of neonatal care. In addition, these doctors are supported by a highly trained nursing staff who have the advanced clinical skills required to care for your baby.

If you have any questions, please call our office at 956.994.9100. To learn more about neonatal intensive care, please visit our Parent and Patient Information Center at www.pediatrix.com/parents.
